

## Summit Academy Graduation and Job Placement

### Our Mission

We exist to assist individuals in developing their ability to earn and to become contributing citizens in their community.

Our fundamental belief is: *the best social service program in the world is a job.*

### Graduation Rates

Admissions counselors work closely with students to encourage successful completion of the programs. They provide guidance on vocational progress, class scheduling, and referrals to appropriate alternative resources (childcare, counseling, transportation and/or emergency help). Admissions counselors make every available effort to address barriers that interfere with a student's ability to complete the program.

### Summit Academy: Career Services

Summit Academy's Career Services department works closely with students to prepare them for entry into the job field. Students receive a work readiness evaluation as they near program completion. This allows Career Services to help students evaluate any barriers that may impede their entry into the workforce.

Summit Academy assists students in obtaining employment through assistance in resume building, mock interviews, completing online applications, faxing and locating employment opportunities.

Career Services also focuses on job retention. They maintain ongoing contact with students and employers after placement. This helps to support student success and build strong relationships with employers. Career Services will follow students up to one year.
